A WORD FROM THE CONGRESS PRESIDENT

Distinguished guests, dear friends,

It is a great honour for me that the Orthopaedic Department of the České Budějovice Hospital a. s. has been entrusted by the Committee of the Czech Society for Orthopaedics and Traumatology with organising the ČSOT National Congress. This congress is being held to mark the 80th anniversary of our department's founding, which, incidentally, makes it one of the oldest orthopaedic departments in the Czech Republic. This year is also significant for the Czech Society for Orthopaedics and Traumatology, as it enters its second century of existence, and it is an honour that this milestone is taking place in our city.

Our aim is to deliver presentations of the highest professional standard, whilst also showcasing the friendly atmosphere of our hospital and our collaborating departments. We would like all our professional meetings to take place in the same friendly spirit. We have also endeavoured to prepare an interesting social programme, which should showcase the beauty of our region and contribute to a pleasant experience for you and, where applicable, your loved ones.

David Musil, MD, PhD
Head, Department of Orthopedics of České Budějovice Hospital Inc.
